EXPERIENCE

- Full Stack Developer · GEOFLIXZ+ · Los Angeles, CA · Remote

Dec 2024 – Present

 - Owned the complete stack of a 10,000+ user streaming platform including React UI, Node.js/Python APIs, and AWS cloud infrastructure (S3, EC2, Lambda), ensuring 99.9% uptime.
 - Architected AWS data warehouse (Redshift, Glue, Athena) with automated ETL pipelines, cutting data latency from **24 hours to real-time**, processing 500K+ daily events.
 - Built predictive churn models (Scikit-learn) and Python cohort analyses, driving **12% churn reduction, 14% conversion increase, and 22% marketing performance improvement**.
 - Delivered weekly data storytelling presentations to the CEO using Tableau and Power BI dashboards, translating analytical findings into product roadmap and go-to-market decisions.
- Junior Full Stack Developer · KPITENG · Ahmedabad, India

Jul 2022 – Jul 2023

 - Built and maintained responsive web applications using React, Angular (frontend) and Node.js, MongoDB (backend) for multiple client products.
 - Optimized performance through systematic A/B testing and funnel analysis, achieving **15% user engagement uplift and 10% load time reduction**.
 - Defined feature-adoption KPIs and delivered weekly analytics reports using Google Analytics and Excel; collaborated in Agile/Scrum teams across the full software development lifecycle using Git and JIRA.
